

## Full Color Video Pixel-Led

### Features:

1. Giving play to advantage of Led pixel, it can carry out wide range of video effect, RGB full color changing, scanning, color chasing, animation etc..
2. Wide application, it can be designed in luminous letters, shaped screens, wall lighting, stage backdrop, exhibition decorating...etc
3. Easy installation, drilling installation design, can be cut and re-connected at will.
4. Perfect waterproof process, can be well adapted at outdoor with IP68

**Connection Pin Definition:**

Cable	Definition
White	GND
Red	VCC
Green	DAT
Blue	CLK
Yellow	GND

**Specifications:**

Model Type	∅ 12 Pixel Led
Leds Size	∅ 8mm
IP Rating	IP68
Unit Weight	8mg
Horizontal Viewing Angle (dgr.)	120
Vertical Viewing Angle (dgr.)	120
Input Voltage	5V
Power Consumption -Max (/pixel)	0.3w
Gray Scale	32
Operate Temperature	-20℃-60℃

**Project Overview:**
